FORTY TEXANS IN LINE.

They Carry Along Sfeers' Horns That Are Immense.

MIKE MITCHELL MARCHES

With One Foot Frozen Fighting Ute Indians and the Other Cut During War of the Sixties Arkansas Grand Army Veteran Bears Flag.

Toledo, Sept. 2.—With flags flying, bands playing, crowds cheering and a bright sky, overhead, the veterans of the Grand Army of the Republic for the forty-second time marched through two miles of streets, guarded by the younger generation soldiers of the Seventh regiment of the Ohio national guard who restrained the throngs of sightseers at the ropes, the old campaigners of Grant and Sherman, moved to the blast of trumpet and pipe and roll of fire and drum. At the official reviewing stand, where stood W. H. Taft, Governor Harris, Senator Foraker, Mayer, Whitlock and many other notables, colors were dipped as each department commander joined Commander-in-Chief Burton in the stand.

The parade being the leading feature of the encampment, many posts timed their arrival for that event and the crowd of visitors was vastly augmented. At dawn squads of them were on the streets watching the city employees making clean the pavement on the line of march and stringing ropes along curbstones to hold the crowds in check. The day had been proclaimed a holiday by the mayor and a majority of business places as well as all public offices were closed. With a small delegation from Arkansas marched Michael Mitchell, who, true to his promise, sustained himself with honor by carrying the department flag, leaving his cane at his hotel. Mr. Mitchell's right foot was frozen campaigning against the Ute Indians and the other one cut up by a rifle ball during the civil war. Ordinarily he walks with the assistance of a heavy cane.

The Texans, some forty of whom were in line, attracted marked attention by a seven foot spread of steers' horns carried by Colonel Dexter Wagner.

Ransom post of St. Louis, named by General Sherman in honor of the youngest major general in the northern forces, who died of fever on the march to the sea, made an impressive appearance.

New York had well over 1,000 veterans in line.

The delegates from Utah displayed on their breasts keys inscribed: "Come to Salt Lake in 1909, Where the Sage Lfity Grows."

W. H. Taft and Senator Foraker, meeting for the first time since the Republican convention created a hurricane of cheers when they shook hands with each other on the official stand while the parade was passing.

Senator Stephenson Successful.

Milwaukee, Wis., Sept. 2.—Returns received indicate that United States Senator Stephenson of Marinette has carried the Republican primaries. It is estimated he will have from 10,000 to 15,000 plurality, over S. A. Cook. For Democratic endorsement for United States senator Neal Brown of Wausaw leads Melvin A. Hoyt of Milwaukee, by a safe plurality. Jacob Rummel was nominated by the Social Democrats.

For governor the Republicans have chosen J. O. Davidson, the present incumbent. John A. Aylward leads the Democrats. One of the greatest sensations was the defeat of Congressman Jenkins of the Eleventh district by Irving L. Lenroot, former speaker of the state assembly and a strong La Follette follower.

MORE YELLOW FEVER.

Several Cases Exist In and Not Far From Vera Cruz.

Austin, Sept. 2.—The state health department has been advised by Dr. J. F. Eaves of that department, who is in Mexico looking over the yellow fever situation, that a number of new cases have broken out in and around Vera Cruz and south of that point. The state may take up the matter with the Mexican government to see if the disease cannot be checked, as it is getting too close to Texas. The time in which purchasers of state lands had to pay interest before the land is declared forfeited, expired at 10 o'clock Wednesday. This interest was due Nov. 1, 1907, but the state granted purchasers to Sept. 2, 1908, before the land was declared forfeited. As many out of the 65,000 have failed to pay interest, thousands of acres of state land forfeited for non-payment interest are thrown on the market.

Boat Capsizes, Couple Drown.

Tulsa, Okla., Sept. 2.—While boating on Orcutt lake, three miles from Tulsa, Frederick Cornelius of Muskogee and Miss Babbie Metcalf of this city drowned. James Lafferty and Miss Francis Kemble had a narrow escape for a life boat. After the boat capsized Lafferty swam ashore with Miss Kemble. He returned for Cornelius and Miss Metcalf, but before he reached the spot where the boat capsized they had drowned.

Foreclosure Proceedings.

Pittsburg, Pa., Sept. 2.—Foreclosure proceedings against the Pittsburg and Wabash Terminal Railroad company on first mortgage and property given to secure first mortgage bonds were commenced in United States circuit court here by the Mercantile Trust company of New York.

Forced to Release Prisoner.

Houston, Sept. 2.—J. Robinson, deputized by the sheriff of Fort Bend county to help hunt Missouri City post-office robbers, found a man he thought to be one of them at Blodgett, near Houston and captured him. Before he found out his prisoner's name an unknown Italian appeared and with a double barreled shotgun and compelled him to release his prisoner.

Sixty-Six Per Cent Decrease.

Mineral Wells, Tex., Sept. 2.—General Superintendent Bock of the Weatherford and Mineral Wells Northwestern Railway company declares the gross receipts of his line show a 66 per cent decrease compared with last year. There has been no decrease in operating expenses, he says.

Lady Falls Dead.

Fort Worth, Sept. 2.—Mrs. Etta Merritt of Paris, Tex., fell dead at Benbrook. She was traveling over the country with her husband and five children. They arose Wednesday morning. Exclaiming robbers were shooting at them, she dropped dead. No shots were fired.

Expires In Rocking Chair.

Weatherford, Tex., Sept. 2.—Mrs. Frances Roper, seventy-four years old, a Texas pioneer, died suddenly Wednesday morning while seated in a rocking chair.

Mysterious Killing.

Omaha, Neb., Sept. 2.—As Dr. F. T. Rusten, one of the best known surgeons in the west, was about to enter his residence at an early hour Wednesday when he was shot and killed. The affair is a mystery.

Continues to Improve.

Atlantic City, N. J., Sept. 2.—The condition of Charles B. Roberts of Baltimore, who was shot, it is claimed by a highwayman, on the board walk here last Wednesday night, continues to improve, and his recovery is not doubted. The police have made no progress in their efforts to apprehend the assailant of Mr. Roberts.

Falls Under Steam Hammer.

Pittsburg, Pa., Sept. 2.—Soy Skinshep fell under a steam hammer at the Duquesne Steel works. His head was so badly battered he died.

REMARKABLE RECOVERY.

Patient In Advanced Stage of Lockjaw Cured.

New York, Sept. 2.—A case of tetanus in an advanced stage has just been cured at St. John's hospital, Brooklyn. It is believed that the cure was effected through the use of sodium chloride, as advised by the specialists of the Rockefeller institute. The patient was Allen Kollock, fifteen years old, of Woodhaven, L. I. Three weeks ago, while at Patogue, a foot was run over and a toe badly crushed. Dirt got into the wound. It was cleansed, but the foot swelled to almost twice its normal size.

The swelling then was reduced and no alarm was felt. Eight days after the accident the boy found that he could not open his jaws.

A doctor pronounced the case to be rheumatism. The next day the boy's jaws were more tightly clinched than ever, and the doctor then decided he was suffering from tetanus. He was rushed to the hospital. His body became rigid and it was impossible to unbend it. Then the injured toe was amputated.

Following the operation a 25 per cent solution of sodium chloride was injected directly into the spinal cord. Immediately the boy's vitality began to ebb and he was in a state of collapse for sixteen hours. The injection of 3,000 units of anti-tetanus serum and salt solutions were also used and gradually his mouth began to open. He was fed through a bottle. On the sixth day after the sodium chloride injection he began to show marked signs of improvement. His recovery was rapid from that day.

May Be Long Session.

Washington, D. C., Sept. 2.—Senator McCumber of North Dakota, who has just returned from visits to President Roosevelt and Secretary Taft, expressed the opinion that the extra session of congress to be called after March 4 for the revision of the tariff will be of long duration and that it will witness many stubborn contests over the various schedules which it is proposed to change. Mr. McCumber said that the west will demand that several articles which are now on the protected list shall be made free of duty.

Hammond Succeeds McAlpin.

New York, Sept. 2.—John Hays Hammond, a well known metallurgist, was elected president of the National League of Republican Clubs, to succeed E. A. McAlpin, who recently resigned. The committee issued a call for a convention of the organization for Sept. 22 at Cincinnati.

Smallest Since 1892.

White River Junction, Vt., Sept. 2.—The Republicans won the election by carrying the state for Lieutenant Governor Prouty of Newport for governor by about 28,000 over James E. Burke of Burlington, his Democratic opponent. The plurality was the smallest in a presidential year since 1892.

Committee Meeting Called.

Chicago, Sept. 2.—Secretary Urey Woodson of the Democratic national committee sent out notices to all members of the national committee requesting their presence at a meeting to be held here on Sept. 8. No specific reason was given, but it is understood that plans for the campaign will be discussed.

Succumbs to Injuries.

Buffalo, N. Y., Sept. 2.—John W. Greiner died from injuries alleged to have been received at the hands of John R. Madigan, president of the Niagara Racing association. Madigan has been arrested. The injuries received by Mr. Greiner followed an altercation.

Declared Unconstitutional.

Guthrie, Sept. 2.—Judge J. W. Houston, in the district court here, declared unconstitutional the Oklahoma separate school law providing separate bonds and separate schools for negroes in the new state.

Swallows Live Bee.

Washington, Pa., Sept. 2.—While eating honey Miss Rosa Zahnizer swallowed a live bee. She was stung in the throat and nearly choked to death.

Richardson Not the Negro.

Springfield, Ill., Sept. 2.—Mrs. Earl Hallam has signed a statement that George Richardson is not the negro who assaulted her on the night of Aug. 14.

Kansas City Wheat Receipts.

Kansas City, Sept. 2.—Wheat receipts Tuesday were 153,000 bushels.

BY CARNES & WALLACE

BRYAN, TEXAS, SEPT. 3, 1908.

Two naturalists will accompany Roosevelt on his African expedition. Now Dr. Long will be saying they are nature fakes.

An Apostolic Faith preacher declares that tobacco users cannot go to heaven. "Let him that is filthy be filthy still."

"Thou shalt not take thy neighbor's job," says Mr. Gompers. This is not one of the commandments of the Decalogue, but it sounds like it.

A good many of the so-called reforms in education are nothing but fads. It is as true now as it always was that there is no royal road to learning.

Fisherman Taft found the lake too choppy for the bass to bite. He will find the political waters in a troubled condition and quite as unfavorable to his plans in November.

Charles Wernetle, president of the San Antonio Liquor Dealers Association, has sold out his interests and bought a hotel. Fleeing from the wrath to come, as it were.

"Civil war rages apace in Persia," says a late headline. Didn't know it had ever stopped since the Shah tried to pull back the constitution he had granted by the string tied to it.

In its comparison of Houston with London as an inland port the Chronicle omitted to state in what particulars Buffalo bayou resembles the River Thames.

Chairman Storey has informed the members of the state Democratic committee that they are to make themselves useful by work in the interest of the party, instead of posing as ornaments.

The Krupps and other leading German manufacturers and bankers are backing a company being organized for the purpose of establishing lines of airships between the principal capitals of Europe. The company has a preliminary capital of \$125,000.

Alarmists are predicting another Mexican revolutionary outbreak about September 16, which is the Mexican Fourth of July. Possibly, though, there are some idle fellows who want jobs as deputy marshals along the border and have started the rumor in their own interest.

The Houston Chronicle has figured it out that seven trains of thirty cars each will not be sufficient to haul all the books required by the Texas schools from the publishing houses to the distributing points in the State, and that the cost to the people will be more than \$3,000,000.

One African Methodist Bishop says the negroes will bolt the Republican ticket and two African Methodist say the colored brother will continue loyal. Our opinion is that when it comes to a show-down the negro votes will divide about in the same ratio as the bishops—two for Taft to one for Bryan.

"Always a little in advance of the others.
The best and freshest goods at prices a little lower."

ASSIGNMENT OF TEACHERS.

To the Various Schools of the City Public Free School System.

Prof. W. C. Lawson, superintendent of the Bryan public free schools announces the assignments of teachers for the new school year as follows:

A. W. Kinnard, principal, Mathematics and English.

Miss Wesa Weddington, assistant, Latin and History.

Grades—East Side: H. C. Smith, seventh grade; Miss Ada Board, sixth grade; Miss Ray Montgomery, fifth grade; Miss Lella Griffin, fourth grade; Miss Sunshine Cole, third grade; Miss Annie Dearing, second grade; Miss May Burtis, first grade; Miss Pearl Gandy, general assistant.

West Side—C. M. Bethany, principal; Mrs. Minnie Estell, first assistant; Miss Cordia Fletcher, second assistant; Miss Virginia Watkins, third assistant.

FROM THE BOSPHORUS TO BABYLON.

The old Hebrew prophet, looking down through a vista of centuries, saw in a vision the strenuousness of this age—"the flower and fruit of all the centuries"—and exclaimed: "In the last days men shall run to and fro in the earth and knowledge shall be increased." This prophecy is called to mind by the recent announcement that the Bagdad railroad is now an assured fact. It will extend from Constantinople to the head of the Persian Gulf, a distance about equal to the length of Stillwell's Orient line from Kansas City to Topolobampo on the Gulf of California.

The entire route will lie through an extensive region that was for many centuries the theater of the world's greatest activities, and the eastern terminus will be near the cradle of the world's oldest civilization. Figuratively, it will roll back the billowy tide of time and unroll the moldering record of ages. The antiquarian and the archeologist find here the first faint beams of the dawn of history shining on a mature civilization maintained by nations having a settled government and established institutions. Centuries grew into millenniums; great empires arose, flourished and passed away. Nimrod, Job, Abraham, Jonah, Sardanapalus, Sennacherib, Nebuchadnezzar, Cyrus, Artaxerxes, Darius, Alexander, Zenobia and many other star actors here played the parts in the great drama of human affairs that have caused their names to be written in history.

Concerning this latest daring exploit of modern commercialism, the Wall Street Journal says:

"The Bagdad line has a threefold significance. It will open one of the richest Asiatic districts to commerce, to mining and to agriculture. These regions were once the seat of Oriental arts and within this valley is the town from which muslim derives its name. It was not surprising if the Tigris and Euphrates basin should, under the stimulus of such a road, become in due time a surplus grain territory something well worth the pains of merchantmen. Yet the greater significance of the line will consist in its service as a connecting link between Europe on the west and the waters of the Indian and Pacific oceans on the east. It is this aspect of the matter which throws the Bagdad route into prospective competition with the Suez Canal route on the one hand and with the Trans-Siberian line on the other. It likewise affects the status of the Panama Canal. It will give to Germany and England, as well as to Japan, all of whom have been extending their steamship systems around the coasts of southern and eastern Asia, a new connection by which to get better rates to and from the East for the increasing volume of traffic. Nor can the trans-continental railways of the United States afford to overlook the work of the German engineers in bridging the gorges and tunneling the ranges of the Taurus mountains on their way to the East by way of Bagdad."

GOOD BUSINESS.

The I. & G. N. Special Has Hauled 3000 Bales Out of Bryan.

Local I. & G. N. Officials are well pleased with the amount of business handled by the cotton special, a train put on Aug. 15, to operate between this point and Galveston. To date the special has hauled something more than 3000 bales out of Bryan.

EXAMINATION OF TEACHERS.

County Superintendent T. W. Parker advises that examination of teachers will be held at the courthouse next Friday and Saturday. Mr. J. A. Moore and Mr. J. M. Dulaney will conduct the examination.

While some difficulty has been experienced in obtaining teachers with permanent first grade certificates, all the schools under his supervision have been supplied. With the co-operation of the teachers engaged Mr. Parker looks forward to an exceptionally profitable school year.

Miss Laura Stevens of Liberty arrived yesterday afternoon and is the guest of Mrs. T. K. Lawrence. Miss Stevens is a former pupil of Villa Maria, whose musical accomplishments have attracted wide notice. Her presence here will be the source of much pleasure to her many friends in this city.

Mr. Florian Stetz an old and well known citizen of College was in the city for a short while yesterday.

NOW, LISTEN!

We will put our machine in your house for a reasonable length of time on trial. You can investigate as to our honesty and sincerity of premises. And as to the superiority of the Singer or Wheeler & Wilson machines. It is an undisputed fact that they are the leaders the world over. Singer Sewing Machine Company. T. A. Satterwhite, Salesman. Phone 105.

DISTRICT COURT MATTERS.

Preparations are complete for the convening of district court of Brazos county, which occurs next Monday morning.

A total of 109 cases are recorded in the civil docket for disposition at the approaching term. Of this number 56 or more than 50 per cent are divorce, 16 are suits for damages, and the remainder of the docket is made up of the usual run of unimportant matters which occupy the time of the courts. The railroads are made defendants in a majority of the claims for damages but the Missouri Bridge and Iron Co., which built the county bridge at Koppe ferry last spring also are made defendants in a \$2000 suit of this character for personal injury alleged to have been sustained by one of the men employed in constructing this bridge.

The criminal docket is extremely light, thirteen cases being the total so far recorded. Two of these are for murder in the first degree, one for murder in the second degree and the remaining ten are for offenses of a minor nature.

Judge J. C. Scott of Franklin and Hon. J. Felton Lane, district attorney, are expected to arrive Sunday afternoon.

BOARD MEETS TODAY.

The Board of Directors of the A. & M. College will meet in the board room at the College this morning. This meeting is held in lieu of the regular annual meeting and besides fixing the budget and making appropriations for the coming year, other matters will be disposed of.

Judge A. Haidusek of LaGrange arrived in the city yesterday to attend the meeting of the Board of which he is a member.

MORE BANK TALK

DID it ever occur to you why all good business men keep a checking account with a bank? We will tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being a receipt. Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on his balance in the Bank.

member of the board of directors of
A. & M. college and editor of Svoboda,
one of the most widely circulated and
influential weekly newspapers in the
state, was in the city yesterday after-
noon.

ARRESTED IN KANSAS.

Walter Hodges, With Many Aliases,
Held for Texas Officials.

Brazos county officers have been ad-
vised of the arrest of Walter Hodges,
colored, alias Walter Shepard, alias,
C. J. Aronez, alias L. W. Reager, by
whom he will be held until service can
be perfected for his return to Bryan,
where he will be tried for criminal as-
sault committed Jan. 9, 1908.

Hodges has led the officers a pretty
chase since the commission of the
crime, and has cost them and Mr. C.
G. Parsons a lot of money and much
time in an effort to locate and bring
him to trial.

Hodges is a very light mulatto, about
25 years old, with light brown hair,
perfectly straight, blue-grey eyes and
as may be seen by the picture here-
with, could readily pass himself off for
a white man in a community where he
was unknown.

Hodges has been traced from Bryan
to El Paso, to Mexico, thence to Sweet-
water, thence to Kansas.

Co-operating with the Brazos county
officers and a detective agency Mr.
Parsons, by whom the fugitive was
employed during his residence in Bry-
an has had pictures of the runaway
printed on post-cards and sent broad-
cast throughout the country, and oth-
erwise aided in every possible man-
ner the officers who have had the mat-
ter in hand.

There seems to be no doubt as to
the identity of the party under arrest,
and it is hoped to return him to Texas
for trial at an early date.

A liberal reward was offered for the
arrest of Hodges.

HELD WITHOUT BAIL.

Felix Brown, Charged with Murder Re-
manded to the Custody of the
Sheriff.

Felix Brown, charged with the murder
of Harry Williams during the
early morning hours of Friday, Aug-
ust 28, was remanded to jail yesterday
afternoon without the benefit of bail,
to await the findings of the Brazos
county grand jury.

Two full days were consumed in the
examining trial which was conducted
by County Attorney Bethea before Jus-
tice L. D. McGee, and sixteen witness-
es were examined.

Mr. Bethea was no doubt the busi-
est man in Bryan during the trial,
which ended after the examination of
sixteen witnesses at 5:30 o'clock yester-
day afternoon. Besides interrogat-
ing all the witnesses he made a type-
written copy of their testimony, which
totals 24 pages of legal cap, averaging
thirty-four lines to the page and four-
teen words to the line, or 11,424 words
pounded out during the investigation.
Sheriff Nall, Deputy Conlee and Con-
stable Baker have each contributed
skillful work in apprehending and se-
curing proof that justified the court
in remanding for trial the principal in
what is perhaps the most atrocious
murder recorded in the criminal calen-
dar of Brazos county.

A LESSON IN AGRICULTURE.
Mr. Wellborn Would Interest Teachers in the Subject.
Prof. W. C. Welborn, vice-director and agriculturist of Texas Experiment Station, College Station, has issued a circular letter to the various county superintendents of education of the State, of which the following is a copy:
To the county superintendents of education. Dear Sir: I am sending you a short, simple little bulletin telling about a winter growing clover, a good pasture and land enriching crop suited to every kind of soil in the State of Texas, and a plant so easy to grow that it often spreads like a weed on the commons and by the roadside.
As your schools are to take up the new study of agriculture, the first term I hope, I want to suggest that this Bur Clover be sown in boxes of earth, in small plots of ground, or otherwise, to be used in winter and early spring as an object lesson in studying one of the most interesting and valuable facts connected with the science of agriculture, that of nitrogen assimilation from the air by the agency of bacteria living and growing in little nodules, or warts, on the roots of certain plants.
If the superintendents think proper, I would like to add to this little bulletin some specific instructions about planting and growing this clover, and handling it so as to make it a beautiful object lesson about this beneficial provision of nature for enriching the land from the air. If I may be favored with an early reply approving this suggestion, kindly let me know the number of these bulletins I may send you to distribute to your teachers, and may be, to your trustees.
Yours fraternally,
W. C. Welborn.

A NEW TRAIN.
H. & T. C. Will Run a Special Cotton Ball During Season.
Mr. W. S. Wilson agent for the H. & T. C. railway at this point, has received official notification of a new train to be operated over the above named road between Hearne and Galveston, which will be known as the "Cotton Ball." Beginning Wednesday night this train will leave Hearne at 11:30 o'clock every night during the cotton season, and will pick up cars at Calvert, Bryan, Navasota and any of the staple that may come into Hempstead over the Second (Austin branch) division.
The primary object of the new train is to give prompt service from the interior of Texas to the sea. Trains on the H. & T. C. are noted for the rapidity with which "they turn" their wheels, and it is expected that the "Cotton Ball" will sustain the reputation.
